<p><i>Visual Expressions</i></p> <p>Let your child develop their inner actor/set designer as they confidently experience different characters through skits and dramatic arts! Students create props and other imaginative design works by: sketching, utilizing fabric/paint, and exploring other mixed media.</p>	<p><i>Moving Healthy</i></p> <p>This summer, our MBMA students learn the value of movement while building confidence through team building sports, fun games, aerobics and dance! Collaboration, communication, and healthy lifestyle habits are just a few of the added benefits.</p>	<p><i>Threads, Tranquility, and Zen</i></p> <p>Let your child's creativity soar and find their inner peace with our "Threads, Tranquility, and Zen" program. Students will engage in hands-on craft projects, building fine motor skills and artistic potential. Complementing these creative activities, our sessions of zen and tranquility will help children establish a sense of calmness and peace.</p>	<p><i>Nurtured by Nature</i></p> <p>Need to get outside this summer? This session is perfect for the young nature lovers who want to connect with the great outdoors. Through exciting activities like nature walks, wildlife observation, gardening, and environmental projects, students will learn about ecosystems, conservation, and the beauty of the natural world.</p>
<p><i>Game Design</i></p> <p>Let's get into the world of game design! This summer, our students will work together to create their own video game concepts. Students create an initial concept for the game, build a prototype, and pitch their idea to the class. Additional lessons taught include: character design, level design, and world building. Students will then finalize their work using Scratch to create a prototype of their games. Let the games begin!</p>	<p><i>Stop Motion & Claymation</i></p> <p>Has your child ever wondered how movies like Wallace & Gromit or The Fantastic Mr. Fox are made? This summer, they will learn the secret behind the techniques used in Stop Motion and Claymation films! Our campers will create a stop motion video with their own unique character, props, and settings from clay, then animate them using stop motion techniques to bring their ideas to life! Photography, sound effects, and digital manipulation will turn their work into a 30-60 second movie. Rolling!</p>	<p><i>Mad Science</i></p> <p>Unleash the power of curiosity with Mad Science! Packed with thrilling experiments, wild reactions, and hands-on fun, this session lets kids dive into the exciting world of discovery. From bubbling potions to mind-blowing physics, each experiment is a chance to explore the wonders of science in the most creative and entertaining ways.</p>	<p><i>Plate to Palette: The Art of Food</i></p> <p>Calling All Young Food Lovers! This summer, let your child explore the world of cooking, creativity, and nutrition in our "Plate to Palette" camp. Campers will learn basic cooking skills, experiment with food decoration, and discover how to make healthy eating fun. Through hands-on activities, our campers will create delicious snacks, design edible art, and gain an appreciation for fresh ingredients. From shaping colorful fruit platters to decorating cupcakes and making their own nutritious meals, kids will develop confidence in the kitchen while having a blast! Join us for a tasty and creative adventure where food meets fun!</p>
